

# Signature Safari March 2027

## An Invitation to Witness Your Impact

### A Unique Experience

Join us for the March 2027 Africa Bridge Safari - a purpose-driven journey through Tanzania, created exclusively for supporters who want to see their impact, deepen relationships, and experience Africa in a meaningful and respectful way.

March offers exceptional conditions: lush green landscapes, active wildlife, fewer visitors, and a sense of calm rarely found during peak travel months. It is also a moment to step out of winter and into Africa's warmth and light.

## The Journey Through Tanzania

### Safari – 10 Days / 9 Nights

This carefully curated journey explores Tanzania's Northern Circuit, combining iconic wilderness with authentic human connection.

Regions include:

- Serengeti National Park
- Ngorongoro Crater
- Lake Manyara
- Tarangire Conservation Area

Your days are unhurried, filled with game drives across vast landscapes, quietly sharing space with wildlife as it moves freely in its natural habitat. These moments are not about spectacle, but about presence — watching, listening, and absorbing the rhythm of life, where animals, land, and people exist in delicate balance.

# Your Impact in Action

A defining element of this journey is three days at the Africa Bridge project within the Tarangire–Manyara Wildlife Corridor - a place where conservation, education, and community prosperity are inseparable.

In partnership with the Manyara Ranch Management Trust, Africa Bridge supports a long-term vision: protecting vital wildlife corridors while setting neighboring communities on a five-year path to prosperity.

During your time here, you will:

- Visit partner villages supported by Africa Bridge
- Meet families and community leaders shaping their future
- See firsthand how conservation, education, and opportunity are deeply connected

You may arrive inspired by the landscapes - but what stays with you are the people, their resilience, and their hope.

# Optional Extensions

## Zanzibar Beach Extension – 4 Days / 3 Nights

Following the safari, continue to Zanzibar, a place of reflection, beauty, and cultural depth.

- White-sand beaches along the Indian Ocean
- Historic streets of Stone Town
- The scents and flavours of the Spice Island

A gentle transition from impact to rest.

# Rwanda Extension

## Gorilla Trek - 6 Days / 5 Nights

For those seeking a rare and profound experience, continue to Rwanda:

- Time in Kigali, a city known for cleanliness, safety, and vision
- Guided access to Volcanoes National Park
- Intimate, respectful encounters with mountain gorillas

Often the emotional heart of the journey, gentle, wise, and deeply moving.

# Why This Journey Matters

This is not a typical safari. It is an invitation to understand, connect, and strengthen the work you make possible.

The journey blends:

- Unrivalled beauty
- Conservation leadership
- Community transformation
- Cultural exchange
- Responsible travel

Every element supports long-term impact and trusted local partnerships.

This journey is offered in limited capacity to Africa Bridge supporters.

Full itinerary details, pricing and participation options are available upon request for those interested in joining.

*Kathy and I look forward to sharing with you our personal journeys with Africa Bridge and the wonders you will experience on this safari.*
